

Certified Scrum Master (CSM®) Course

Learn the framework, principles, and values that make Scrum work and discover how to serve as a Scrum Master.

- ✓ Scrum Alliance Provider
- ✓ Australian-Based
- ✓ World-Class Trainers

WHY REDAGILE

What is a CSM?

The Scrum Master is pivotal in guiding the Scrum Team by making sure the Scrum Framework is followed.

Working closely with the Product Owner and stakeholders, the SM coaches, facilitates and protects the team, keeps valuable work flowing, and helps with Scrum adoption across the organisation.

SYLLABUS

Learning Outcomes

- Introduction to agile and how to operate in a climate of complexity and rapid change.
- Experience of real Scrum in action through various interactive exercises.
- Deep dive into the Scrum framework, including roles, artefact's and events.
- Introduction to team dynamics and how to create a high-performing, self-organising team.
- How effective, multi-level planning and forecasting work with Scrum.
- How to create an environment for high engagement and motivation.
- Real-world examples from an instructor with 12+ years of experience.
