

Advanced Certified Scrum Product Owner (A-CSPO®) Course

The next step in your Agile journey is to achieve your Advanced Certified Scrum Product Owner certification.

- ✓ Scrum Alliance Provider
- ✓ Australian-Based
- ✓ World-Class Trainers

WHY REDAGILE Course Overview

The Advanced Scrum Product Owner course targets in-depth the 'how to' of the PO role. The focus is on advanced product discovery, stakeholder management, backlog management and customer feedback loops. The highly interactive learning process is built around real-world examples of Agile projects from industry.

SYLLABUS Learning Outcomes

- Learn how the Product Owner engages with stakeholders to maximise value.
- Focus on how product strategy evolves in an Agile organisation with real world examples.
- The importance of customer engagement and understanding what they value.
- Studying cognitive bias and how it may impact the effectiveness of a Product Owner.
- Working with developers and understanding technical debt management.
- Experimentation and validating assumptions using real world case studies.
- Advanced product backlog management and value modelling techniques.
- Using real world examples solve typical Product Owner anti pattern challenges.

COURSE FEATURES Training Takeaways

Here is what you should expect to receive from attending this two-day course:
